Audubon Society: Center at Pomfret

Team B students worked with instructors from the Audubon Society to participate in a Bird Ecology unit. Students worked on identification of birds, bird behavior, calls, and practiced making observations of birds.

To contribute to Team B's Birdathon as part of the Audubon's Migration Magic event through May, use the QR Code below.

Nature's Classroom: Grade 6

Our grade 6 students attended the Lakeside Site for Nature's Classroom from April 8th to 12th. Students participated in daily field groups, student selected lessons, and evening team building activities. Lessons at Nature's Classroom include taking care of the Earth through the reduction of waste and understanding the amount of work and energy put into producing food (our meals)! Students set tables and reflect on their own food consumption and waste through the Ort Report.

If any families would like to donate bird feeders to Mrs. Milton's room, please email her at cmilton@hamptonschool.org

When asked what his favorite part of Nature's Classroom was, Sean P. said, "The best part of Nature's Classroom was the life of a caveman. We acted like cavemen and had to look for food. We couldn't speak like we normally do and we drew with charcoal. Also, making new friends."

Important Dates:

- Grade 6 to Visit PHMS - 5/7,
- SBAC - starts on 5/9 (Team B and C),
